Objective

I am a self-taught HTML email and front-end web developer seeking to apply my skills in a team-oriented environment. I have working knowledge in HTML, CSS, JavaScript, and CRM platforms such as MailChimp. I have a passion for creating responsive user experiences and have demonstrated my abilities through several personal projects.

Skills

- HTML CSS SASS
- JavaScript React Git

Projects

TECHPRO AUTOGLASS

Technologies: HTML, SASS, JavaScript

Live-Demo: [Techpro Autoglass](#)

Here is webpage I've built for TechPro AutoGlass, utilizing HTML, Sass, and JavaScript. This project demonstrates my ability to construct responsive webpages that are user-friendly and visually appealing.

GOOGLE PLAY EMAIL RECEIPT

Technologies: HTML, CSS

Live-Demo: [Google Play Project](#)

I have created a cloned Google Play transactional receipt. It accurately replicates the format and content of a genuine Google Play email receipt, including the order number, purchase details, and payment information.

BATH & BODY WORKS PROMO EMAIL

Technologies: HTML, CSS

Live-Demo: [Bath & Body Works Project](#)

This project mirrors the structure and content of an original Bath & Body Works promotional email. It shows my ability to recreate the precise layout and content while adhering to best practices in email development.
